

## **IRA Legislative Update February 26, 2010**

An IRA task force is currently revising the Association's position on No Child Left Behind. The following is a link to a survey where there are several questions identified for your review. The question comes down to which of these issues reflect the thinking of the membership of the Association. Please take a few minutes to fill out this survey monkey. There is a place to add your contact information, if you wish, so that we can ask follow up questions to more clearly reflect your perspective. The survey will be closed on Sunday March 7th at Midnight. Please note, the issues do not reflect an exhaustive list of items, in 2007, the association issued a set of recommendations. Those remain in effect. In addition, there is a pretty good sense that the wider education community will be working on the ideas of funding and changing the AYP (which we have a position on). For this paper we are thinking about what would be areas that would be unique to the IRA community.
