A
Spring Fling

Come join us for an evening of new ideas to fling you and your students through spring! Keynote speakers, **Gail Huizinga and Sue Johnson** will show you how picture storybooks can challenge your student discussions, introduce units of study, teach literacy elements, and enrich your curriculum. Math and science concepts as well as areas of study can be reinforced using the picture book format. You will be engaged in authentic student activities and will receive an extensive bibliography. Add another enriching dimension to your teaching by learning how picture storybooks can be used effectively in your classroom. You will be amazed at what treasures you will find! **Audience: K-8.**

Be sure and bring a friend or two!

When: Thursday, April 8, 2010 **Time:** 5:00 - 7:30 pm
