

A vintage-style map of the world, showing continents and oceans in various colors like green, yellow, and red. The map is slightly faded and serves as a background for the text.

Black Hawk Reading Council Presents...

Teaching Language Learners to Fall in Love with Books in the Digital Age

A small, light blue decorative starburst or snowflake symbol centered below the title.

This workshop gives you exposure to a variety of engaging books that can be accessed from area public libraries and on the internet. These books are aimed at reaching the needs of EL students in addition to emergent readers in order to help them develop a love of reading. We will preview books that will aid in boosting the confidence of tentative readers and participants will walk away with a list of ideal books that they can immediately plug into their lessons.

Attendees will be entered to win one of the books Korah highlights in her presentation!
